TARIFF FORMAT

Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time new pages may be added to the tariff. When a new page is added between existing pages a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.

Explanation of Symbols - When changes are made in any tariff sheet, a revised sheet will be issued canceling the tariff sheet affected. Changes will be identified on the revised page(s) through the use of the following symbols:

- (C) - To signify changed regulation.
- (D) - To signify discontinued rate or regulation.
- (I) - To signify increased rates.
- (M) - To signify material relocated from one page to another without change.
- (N) - To signify new rate, regulation, or text.
- (R) - To signify reduced rate.
- (T) - To signify a change in text, but no change in rate or regulation.

SECTION 1 - TERMS AND ABBREVIATIONS, (CONT'D.)

Special Access Origination/Termination - Where originating or terminating access between the Customer and the interexchange carrier is provided on dedicated circuits. The LEC provides these dedicated circuits from the Customer's location to the Company's point of presence. The rates and charges for dedicated circuits are determined by the LEC and the Customer is responsible for payment of these charges to the LEC.

Switched Access Origination/Termination - Where originating or terminating access between the Customer and the interexchange carrier is provided on local exchange company Feature Group circuits.

Subscriber - The person, firm, corporation, or other legal entity which arranges for services of the Company on behalf of itself or Authorized Users. The Subscriber is responsible for compliance with the terms and conditions of this tariff. A Subscriber may also be a Customer when the Subscriber uses services of the Company.

Terminal Equipment - Devices, apparatus, and associated wiring, such as teleprinters, telephones, or data sets.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage is used for the purposed of rating calls.

SECTION 2 - RULES AND REGULATIONS

2.1 Undertaking of the Company

NTC services and facilities are furnished for intrastate communications originating at specified points within the state of Kentucky under terms of this tariff. Intrastate service is offered in conjunction with interstate service.

NTC installs, operates, and maintains the communications services provided hereinunder in accordance with the terms and conditions set forth under this tariff. NTC may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Customer, to allow connection of a Customer's location to the NTC network. The Customer shall be responsible for all charges due for such service arrangement.

The Company's services and facilities are provided on a monthly basis unless otherwise provided, and are available twenty-four hours per day, seven days per week.

2.2 Limitations

2.2.1 Presubscribed service is offered in Equal Access areas only. Travel service is available from all areas.

2.2.2 Service is offered subject to the availability of the necessary facilities and equipment and subject to the provisions of this tariff.

2.2.3 NTC reserves the right to discontinue or limit service when necessitated by conditions beyond its control, or when the Customer is using service in violation of provisions of this tariff or of the law.

2.2.4 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.5 Taxes

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.6 Terminal Equipment

The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a telephone set, PBX or key system. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided. The Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. When such terminal equipment is used, the equipment shall comply with the generally accepted minimum protective criteria standards of the telecommunications industry as endorsed by the Federal Communications Commission.

2.7 Installation and Termination

Service is installed upon mutual agreement between the Customer and the Company. The service agreement does not alter rates specified in this tariff.

SECTION 2 - RULES AND REGULATIONS, (CONT'D.)

2.8 Payment for Service

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an Authorized User of the Customer by NTC. All charges due by the Customer are payable to the Company or to the Company's authorized billing agent (such as a local exchange telephone company or other authorized entity). Terms of payment shall be according to the rules and regulations of the billing agent and subject to the rules of regulatory agencies, including the P.S.C Ky. Any objections to billed charges must be reported to the Company or its billing agent within sixty days after receipt of bill. Contested charges will be handled in accordance with 807 KAR 5:006, Section 9. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate. All invoices are due and payable upon receipt of the invoice. All amounts owed after the due date are subject to late payment penalty charges of 1.5% per month. The penalty may be assessed only once on any bill for rendered services. Any payment received shall first be applied to the bill for service rendered. Additional penalty charges shall not be assessed on unpaid penalty charges.

2.9 Cancellation by Customer

Any Customer desiring service terminated or changed from one address to another, shall give the utility three (3) working days' notice in person, in writing, or by telephone, provided such notice does not violate contractual obligations or tariff provisions.

2.10 Interconnection

Service furnished by NTC may be connected with the services or facilities of other carriers. Such service or facilities, if used, are provided under the terms, rates and conditions of the other carrier. The Customer is responsible for all charges billed by other carriers for use in connection with NTC service. Any special interface equipment or facilities necessary to achieve compatibility between carriers is the responsibility of the Customer.

SECTION 3 - DESCRIPTION OF SERVICE & RATES

3.1 Description of Service

Service is available twenty-four hours per day, seven days a week. Service is offered on a presubscription basis and dial access basis from equal access exchanges. Service is offered on a dial access basis only from exchanges in which equal access is not available.

3.1.1 Public Telephone Surcharge

(N)

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

SECTION 3 - DESCRIPTION OF SERVICE & RATES, (CONT'D.)

3.4 Calculation of Distance

Usage charges for mileage sensitive services vary based on the type of service subscribed to by the Customer. For services utilizing switched access, mileage measurements for rate schedules are based on the distance in airline miles between rate centers associated with the originating and terminating stations. For services utilizing dedicated access, mileage measurements for rate schedules are based on the distance in airline miles between the NTC network access point associated with the station utilizing Dedicated Access Origination/Termination and the rate center associated with the called/calling station.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center or network access point serving the Customer's location and the called/calling station.
- Step 2: Obtain the difference between the "V" coordinates. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

(N)

4.13.1 Simply Makes Sense Outbound Service

Simply Makes Sense is a switched outbound service billing in one (1) minute increments with an initial period for billing purposes of one (1) minute. Customers are billed usage plus a monthly recurring charge (MRC). Customers who select this program are eligible for several different discount programs.

All Customers will receive a certificate for a rebate at the time Simply Makes Sense service is selected. Each certificate applies to a rebate term of six consecutive months beginning on the date the certificate is sent to the Customer. The certificate may be mailed to the company at any time during the rebate term up through two months after the rebate term. It will be applied only if the Customer incurs \$25.00 in average monthly billing.

The rebate amount is calculated on the total amount of intrastate and interstate usage accrued over the six consecutive months and applied to the 7th, 8th or 9th month's billing. The rebate amount will show as a lump sum line item discount amount on the Customer's bill. The rebate amount is limited to and will not exceed the total amount of the bill receiving the rebate (excluding taxes and monthly recurring charges), and the month the rebate is applied is not included in the rebate term. New rebate certificates are sent to Customers as the previous ones are used. The new rebate term will start the month following the rebate month.
